

VP External

This is who you can thank for your precious U-Pass. The VP External is in charge of dealing with organizations, student and otherwise, from outside of UBC, otherwise know as, the Real World. It's a frightening job, but someone has to do it. Dealing with various levels of government and sometimes those overseas, the VP External lobbies for students' benefit and protects our interests. And, like all AMS executives, the job comes with a tidy annual salary of nearly \$21,000.

Chris Bush

Political Science

What do you know about foreign relations?

I'm a residence advisor, I've administrated the Total Football League, and coordinated student leadership conferences, involvement on campus and student problems.

If elected, what would your top priorities be?

Tuition and campus development are top priorities since these have not brought enough returns back to students. All the recent land leases are massive building projects, and with an 86 per cent tuition increase since 2000, there should be more going to student services.

Would you do anything to end Coke's beverage vending monopoly on campus?

I'd look into the cost benefits with the Coke contract and compare it with proposals from other companies.

In your opinion, is best sex internal or external?

I think external sex is better because it allows you to be less connected with the person.

Joel Kozwarski

Economics, political science, philosophy

What do you know about foreign relations?

I am a very social person, and I'm also on the AMS Development Committee and I have experience at many levels of diplomacy, including the [UBC] Model UN.

If elected, what would your top priorities be?

I want to effectively lobby the B.C. government to lower the share of tuition students must pay to the 2001 level of 20 per cent. I also would like to see dialogue between the AMS and First Nations groups, in recognition of the fact that we are on First Nations land.

Would you do anything to end Coke's beverage vending monopoly on campus?

I would do everything in my power to end Coke's monopoly. Monopolies limit consumer choice, and they artificially inflate prices.

In your opinion, is best sex internal or external?

The best sex is internal.

Mathew Naylor

Biology and political science

What do you know about foreign relations?

I'm currently the AMS representative for the faculty of science, the executive secretary of the SUS and I chair the AMS ad hoc lobbying committee.

If elected, what would your top priorities be?

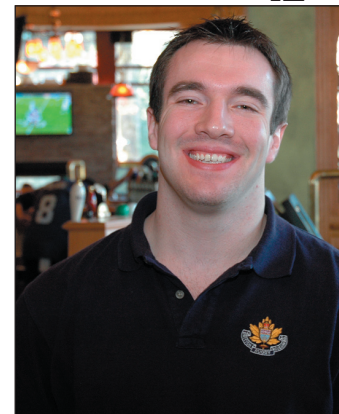

I have four priorities. The most important one is that we've been fighting with the CFS (Canadian Federation of Students) for far too long. I want establish a long-term agreement with the provincial government to decrease the percentage of tuition we pay from 28 per cent to 20 per cent, and I want to look at expanding B.C. grants. Finally, I want to use the External Commission of the AMS to a greater effect.

Would you do anything to end Coke's beverage vending monopoly on campus?

I would support something to expands consumer choice on campus.

In your opinion, is best sex internal or external?

The best sex is definitely external.

Tom Masterson

Biology and genetics

What do you know about foreign relations?

I don't have a whole lot of political experience, but I feel like I represent a broad range of students. I do quite a bit of volunteer work often for events with the Heart and Stroke Foundation, and I read to elementary school students, and I've modelled for a breast cancer fashion show in a fundraiser that raised over \$100,000.

If elected, what would your top priorities be?

First I would figure out what students want, and from what I've heard a lot of what concerns students have to do with the UPass, and transit in general.

Would you do anything to end Coke's beverage vending monopoly on campus?

The deals with Coca Cola I would have to wait a little until I'm knee deep in it to know what I'd do about it.

In your opinion, is best sex internal or external?

What kind of publication is this? (Goes red and laughs)
